Cooperation with bars has worked very well – bars have stepped up security as well. Two robberies - -one at Neptune Statue not solved yet, 2<sup>nd</sup> robbery officers got footage from cameras for a robbery and were able to apprehend the suspect on 264 and make an arrest. Crime is down 50% for the year. ABC officer on site. Work together. Sound ordinance – waiting for approval. Can't arrest people for bad language blasting, can only make them turn it down.

Parking on Atlantic Avenue – the new proposal from Rob Fries and the parking department is going to City Council tonight. The AAA Board approved three motions:

1. The Atlantic Avenue Association supports free off-season on-street curbside parking on Atlantic Avenue Oct-April in future resort parking and mobility plans.
2. The Atlantic Avenue Association supports increased on-street parking on side streets with angled parking up to 171 spaces, but we do not support removing 550 public parking spaces during the Dome build without replacing them with equal or greater nearby parking prior to construction.
3. The Atlantic Avenue Association does not support the city's new parking fee proposal, especially the “dynamic” parking fee structure up to \$22.

Some discussion about having a group meet to brainstorm some other parking ideas including creating a partnership with the public lots, subsidizing the driveway app, or other creative solutions.
